

LLM Architecture

Month 6: Generative AI & RAG | Week 21: LLM Fundamentals |
Day 1

Theory & Concepts

Watch: Andrej Karpathy's Intro to Large Language Models (1 hour). (You can split this over 2 days if needed, focus on the first 30 mins: Concept of Next Token Prediction).

Practice Exercises

Play: Experiment with OpenAI Playground (or HuggingChat). Try changing temperature and system prompts.

Estimated Time: 2h

Completed: []

Notes:
