

Intro to PyTorch/TensorFlow

Month 3: Deep Learning Basics | Week 10: Deep Learning
Frameworks | Day 1

Theory & Concepts

Watch: Daniel Bourke's PyTorch in 25 Minutes (First section). Concept: Tensors are just n-dim arrays on GPU.

Practice Exercises

Python: Install PyTorch. Create tensors. Perform matrix multiplication on GPU (if available) or CPU.

Estimated Time: 2h

Completed: []
