Vectorization (TF-IDF)

Month 4: Natural Language Processing (NLP) | Week 13: Text Basics | Day 2

Theory & Concepts

Watch: StatQuest's TF-IDF (10 min). Concept: Frequency * Inverse Doc Frequency (finding 'rare' meaningful words).

Practice Exercises

Python: Use `TfidfVectorizer` on a list of sentences. Inspect the resulting sparse matrix.

Estimated Time: 2h

Completed: [ ]
